“The Effective Use of New Information Received under Council Directive (EU)  
2021/514 (“DAC7”)”

11 December 2024 at 11:00 (CET)  
Webinar via Microsoft Teams

To: IOTA Principal Contact Persons of IOTA member countries

Budapest, 21 November 2024

## Invitation to the IOTA Webinar “The Effective Use of New Information Received under Council Directive (EU) 2021/514 (“DAC7”)”

Dear Colleagues,

The Intra-European Organisation of Tax Administrations (IOTA) is organising a webinar “The Effective Use of New Information Received under Council Directive (EU) 2021/514 (“DAC7”)”, which will be broadcast live via the Microsoft Teams platform on **11 December 2024 starting at 11:00 (CET) and finishing at 12:30 (CET)**.

Under DAC7, platform operators have to provide information about sales inside the EU by sellers on the platform to tax administrations inside the EU. These rules came into force in January 2023, with the first information being provided in early 2024. Some jurisdictions outside the EU have introduced similar rules or are considering similar rules.

This Webinar aims to provide officials with a better understanding of DAC7 and use of the data obtained from platform operators to identify non-compliance with tax obligations, as well as touch on approaches to dealing with non-compliance with the DAC7 requirements, including those operating outside the jurisdiction.

More specifically, this webinar will focus on:

- How data obtained from Digital Platform Operators can be used by Tax Administrations to identify non-compliance by sellers on digital platforms;
- Approaches to the supply and management of information from Digital Platform Operators;
- Possible approaches to tackle non-compliance by Digital Platform Operators and suppliers outside the jurisdiction;
- The application of equivalence and exchanges of relevant information between EU Member States and non-EU countries;
- Sharing of lessons learned.

For further information about the structure and content of this event, please consult the [Background Note](#).

Delegates attending this event will be IOTA member Tax Administration officials who are involved in the obtaining and exchange of data from Digital Platform Operators, officials involved in the use of such data to identify and tackle non-compliance, and officials interested in how these rules work and how data can be used more effectively to identify non-compliance with tax obligations.

There is no limit to the number of participants who can attend the IOTA webinar.

However, participants are required to register for this event **by 09 December 2024** using [the IOTA e-registration form](#).

The day before the start of the event, participants will receive a link via email from the IOTA Secretariat to access the event using MS Teams.

Please be aware that if we receive your registration after the deadline, the Organisation will not be able to guarantee participation in this webinar. However, this event will be recorded and made available for watching “on-demand” through the IOTA website (only for registered users).

The webinar will be conducted in English, the working language of the Organisation.

Should you have any questions about this IOTA event, you can contact the following members of the IOTA Secretariat:

Contact persons for presentations and technical content of the event

Mr Jonathan Heath, tel +36 70 5423300, email: [Jonathan.Heath@iota-tax.org](mailto:Jonathan.Heath@iota-tax.org)
