Invitation to the IOTA Webinar on “Debt Recovery Challenges in E-Commerce and the Sharing Economy”

Dear Colleagues,

The Intra-European Organisation of Tax Administrations (IOTA) is organising a Webinar on “Debt Recovery Challenges in E-Commerce and the Sharing Economy”, which will be broadcast via the Microsoft Teams platform on **17 April 2026, starting at 11:00 (CET) and finishing at 12:30 (CET)**.

This IOTA Webinar will explore the implications of e-commerce and the gig economy for tax debt recovery, with a particular focus on asset-light and hard-to-recover taxpayers, and explore how tax administrations can adapt their approaches to this evolving compliance landscape.

More specifically, this webinar will focus on:

- Key characteristics of e-commerce freelancers and gig workers that make tax debt recovery difficult.
- Explore why traditional asset-based recovery tools are often ineffective for this category of taxpayers.
- Emerging risks associated with the growth of difficult-to-recover tax debts in the digital economy.
- Alternative and preventive approaches to managing tax debts with limited or difficult-to-recover assets in the context of the digital economy.

For further information about the structure and content of this event, please consult the [Background Note](#) and the [Draft Agenda](#).

Delegates attending this event will be IOTA member Tax Administration officials who are involved in the fields of tax debt collection and recovery.

There is **no limit** to the number of participants who can attend the IOTA webinar.

However, participants are required to register for this event by 15 April 2026 using [the IOTA e-registration form](#) available on the IOTA web portal.

The day before the start of the event, participants will receive a link via email from the IOTA Secretariat to access the event using MS Teams.

Please be aware that if we receive your registration after the deadline, the Organisation will not be able to guarantee participation in this webinar. However, this event will be recorded and made available for watching "on-demand" through the IOTA website (only for registered users).

The webinar will be **conducted in English**, the working language of the Organisation.
