Regulation in the real-time economy

The Evolution and Paradigm Shift

IOTA, 1 October 2026

The ‘Always-On’ Source Data Revolution

From Fiscal Code to Computer Code

Interpretation — *Manual* → *Automated* — Specification

Declaration — *Subjective* → *Objective* — Source

A Maturity Model

Political & Legal Accelerants

Re-polarization

- Digital & physical gatekeeper tensions across geopolitical blocks
- Competition regulation as infrastructure governance

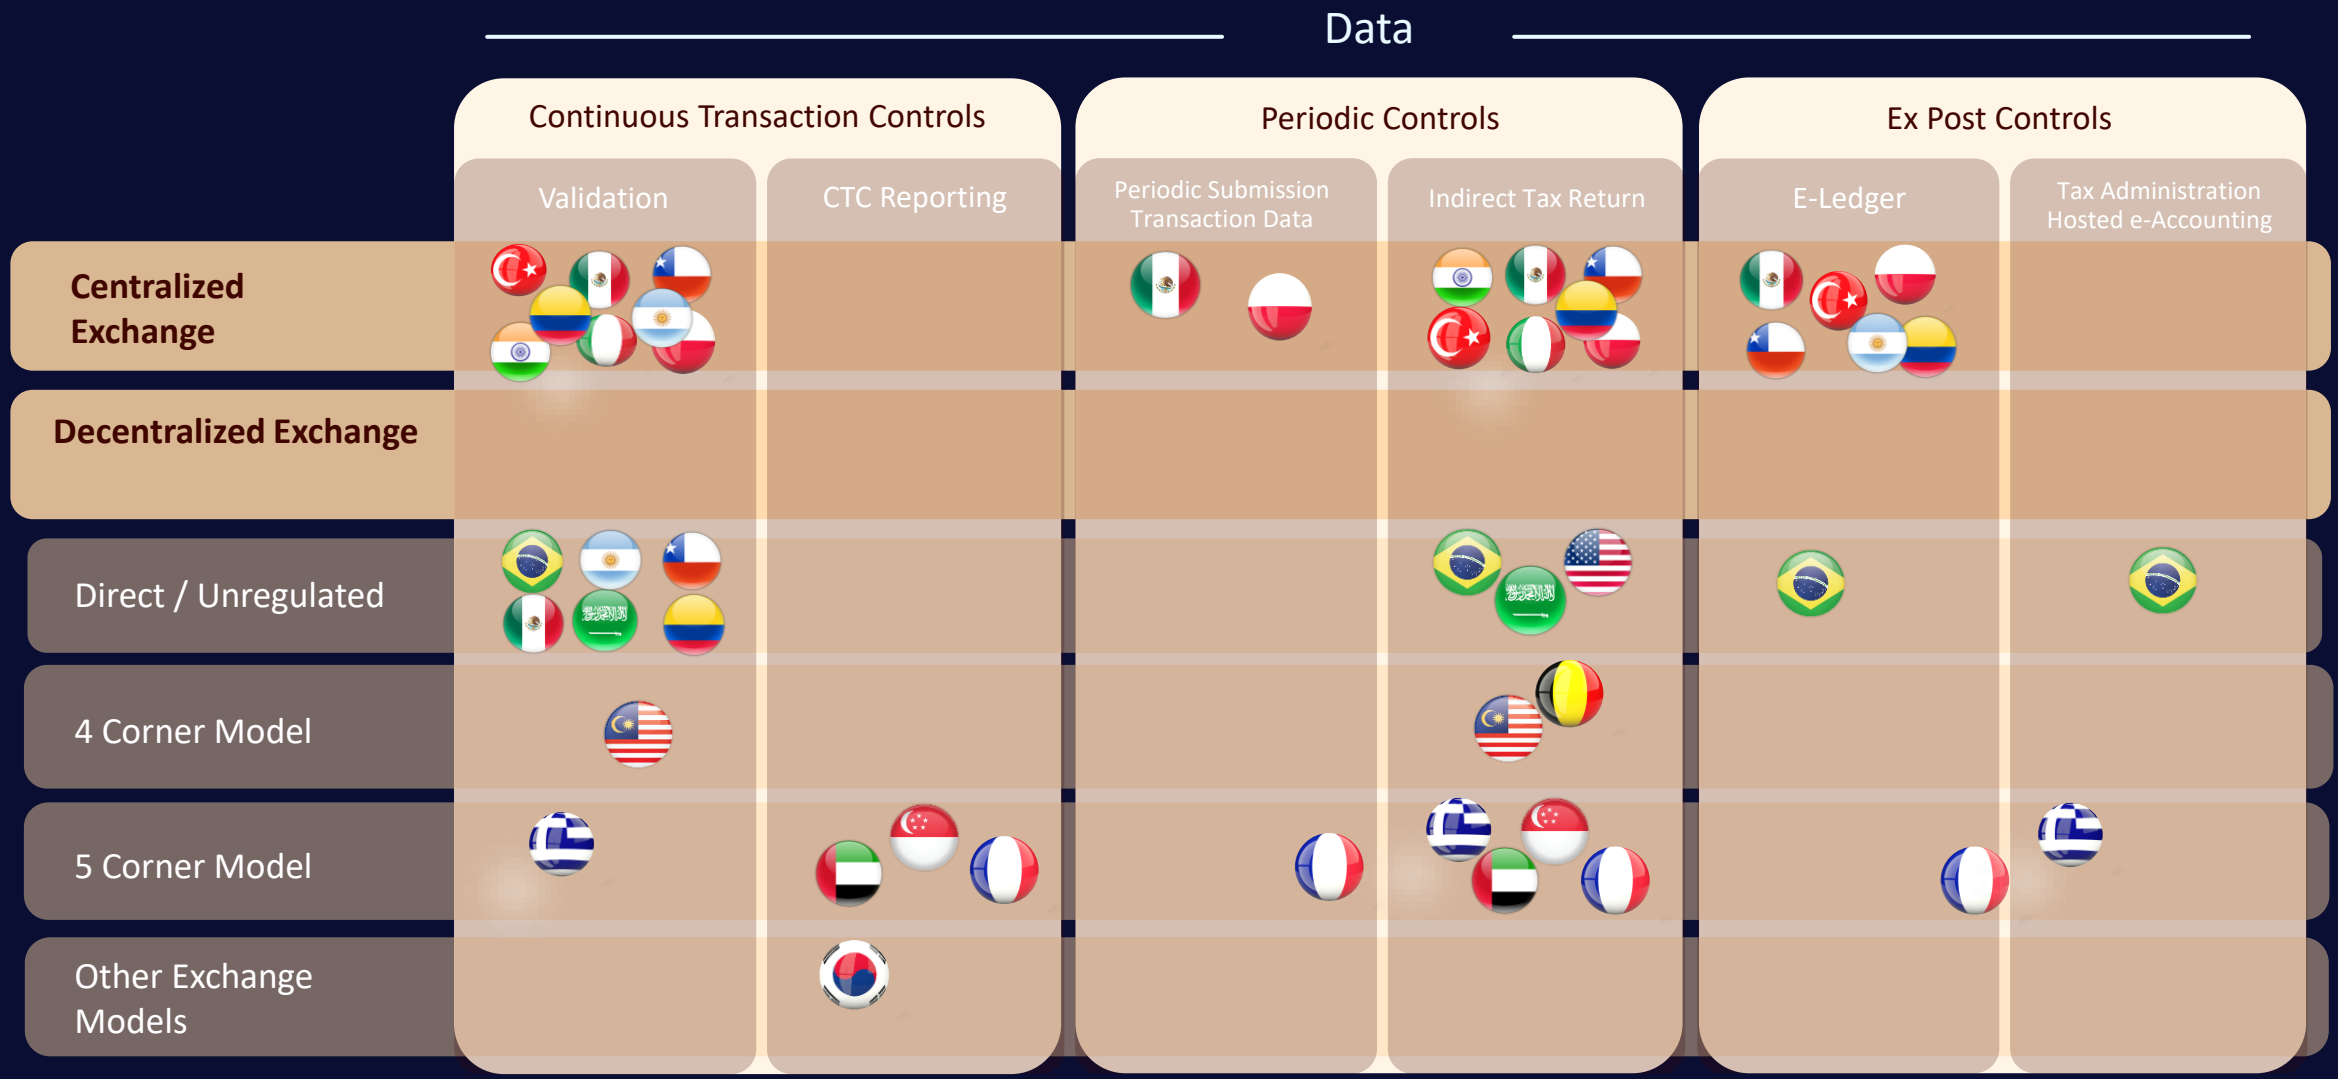

Markets & Tech Accelerants

Outcome-ization

- Creative destruction in business solution space
- 'Agentic glue' – orchestration and UI
- De-assestization of code – abstraction of legacy software value
