Invitation to the IOTA Webinar on "Digitalisation of on-site tax audits"

Dear Colleagues,

The Intra-European Organisation of Tax Administrations (IOTA) is organising a Webinar on "Digitalisation of On-site Tax Audits", which will be broadcast via the Microsoft Teams platform on 9 December 2026, starting at 11:00 (CET) and finishing at 13:00 (CET).

This IOTA Webinar will explore the digitalisation of on-site tax audits, focusing on the key challenges, practical experiences, and impact of the transition from paper-based to digital processes. The webinar will also examine how tax administrations can adapt their workflows, improve efficiency, reduce administrative errors, and benefit from the opportunities offered by a digital and paperless approach.

More specifically, this webinar will focus on:

- Countries' experience in digitalising on-site tax audits, including the transition from paper-based to fully digital processes.
- Presenting the legal and regulatory framework required to support digital on-site audits, including procedural and data protection considerations.
- Exploring the technical and operational solutions developed to enable digital audits, including IT infrastructure and automatic data integration to reduce administrative errors and improve efficiency.
- Exchange of practical lessons and best practices among the participating IOTA members, highlighting solutions, challenges, and key considerations that may be relevant to other tax administrations planning to digitalise their on-site audit processes.

For further information about the structure and content of this event, please consult the Background Note and the Agenda.

Delegates attending this event will be IOTA member Tax Administration officials and experts involved in the process of digitalisation of on-site tax audits, IT officials, legal experts, and tax auditors.

There is no limit to the number of participants who can attend the IOTA webinar.

However, participants are required to register for this event by 7 December 2026 using the IOTA e-registration form available on the IOTA web portal. Registration is possible only upon the invitation of the IOTA Principal Contact Person (PCP) through the IOTA web portal.

The day before the start of the event, participants will receive a link via email from the IOTA Secretariat to access the event using MS Teams. All registered participants are kindly asked to read the Joining Instructions for MS Teams before the event.

Please be aware that if we receive your registration after the deadline, the Organisation will not be able to guarantee participation in this webinar. However, this event will be recorded and made available for watching "on-demand" through the IOTA website (only for registered users).

The webinar will be conducted in English, the working language of the Organisation.
